Cavity treatment / Composite(white) fillings

- **Simple: 22,000** JPY per tooth / 簡単なもの
- **Complex: 33,000** JPY per tooth / 複雑なもの

— One-visit treatment, effective and suitable for small cavities

- **More Complex (direct bonding): 44,000 - 110,000** JPY per tooth / ダイレクトボンド

— For more difficult cases to improve esthetics (esthetic / aesthetic dentistry).

The main advantages of composite fillings are minimal tooth reduction and fewer treatment visits.

If a filling discolours over time, polishing can often restore its original appearance.

- **Ceramic restorations: 33,000** JPY per tooth / セラミック修復

— Although they require more tooth reduction than composite resin, they offer superior aesthetic and functional stability. Typically requires 2–3 visits.
